75 Questions | 300 Marks | 180 Minutes

JEE Main 2025 Mock Test-1

Here are some general instructions for taking an MCQ test:
JEE Main 2025 - Session 1
Read the following instructions carefully.
Time - 180 Min
Max. Marks - 300

Subjects	No. of Questions	Marks	Negative marks	Total Time
Physics	25	100	1	3 Hours
Chemistry	25	100	1	
Mathematics	25	100	1	
Total	75	300		

1. 75 questions will be there in each PCM section. 20 questions will be of multiple choice type & 5 questions answers to be filled as numerical value.
2. Your answers shall be updated and saved on a server periodically and also at the end of the examination.
3. Each question will have four choices out of which only ONE is the correct answer. The candidate has to choose the correct answer by clicking on the radio button (at) placed before the choice.
4. You will be awarded 4 marks for each correct answer and 1 marks will be deducted for each wrong answer.
5. You can change your answer by clicking on some other option.
6. A number list of all questions appears in the middle of the screen, you can access the questions in any order within a section or across sections by clicking on the question number given on the number list.
7. Do not click the button "submit test" before completing the test. A test once submitted cannot be resumed.
8. I have read all the instructions carefully and have understood them.

Mock Test - 1

180:00 MIN — Submit

Mathematics

Question 1/25 — 4/-1

In an examination, ten students scored the following marks: 60, 58, 90, 51, 47, 81, 70, 95, 87, 99. The range of this data is

I 51
II 60
III 81
IV 52

Not Visited | Un-answered | Answered | Review | Review with Answer

Mock Test - 1 — Next

Result:

144/300 Overall Score
30.75 Avg score
44.32 Percentile
170/300 Best Score

Analysis:

Good Performance

Physics
1. Mechanics:
   - Laws of Motion
   - Work, Energy, and Power
   - Rotational Motion
   - Gravitation
2. Thermodynamics:
   - Thermodynamics (First Law, Carnot Engine)
   - Kinetic Theory of Gases

Chemistry
1. Physical Chemistry:
   - Mole Concept and Stoichiometry
   - Thermodynamics and Thermochemistry
   - Chemical Kinetics
   - Electrochemistry
   - Solutions and Colligative Properties
2. Inorganic Chemistry:
   - Periodic Table and Periodic Properties
   - Chemical Bonding and Molecular Structure
   - Coordination Compounds

Areas To Focus

Physics
1. Electrodynamics:
   - Current Electricity
   - Electrostatics
   - Magnetic Effects of Current and Magnetism
   - Alternating Current
   - Electromagnetic Induction

Chemistry
1. Organic Chemistry:
   - General Organic Chemistry (GOC)
   - Hydrocarbons
   - Alcohols, Phenols, and Ethers
   - Aldehydes, Ketones, and Carboxylic Acids
   - Amines
   - Biomolecules (Carbohydrates, Proteins, Polymers)

Topic 1
Topic 2
Topic 3
Assignment 1

Lesson 1 : Introduction to Computer Vision

What is Computer Vision?
Computer Vision is a branch of Artificial Intelligence (AI) that enables computers to see and understand the visual world. It involves teaching machines to analyze and interpret images, videos, or other visual data, much like how humans use their eyes and brain to make sense of what they see.

Computer Vision is transforming industries by automating tasks that require visual understanding. It saves time, improves accuracy, and opens up new possibilities, like safer transportation and better medical diagnoses.

MCQ Quiz

Q.1 What is the capital of France?
- Madrid
- Paris
- Rome
- Berlin

Submit

Correct!

Paris is the capital of France.

View other explanation

Q.2 Which planet is known as the Red Planet?
- Earth
- Mars
- Venus
- Jupyter

Submit

Wrong!

mars is called the Red Planet due to its reddish appearance caused by iron oxide
